SOCIAL HOUSING

WELCOME TO THE BRISTAN RANGE FOR SOCIAL HOUSING PROVIDERS

The Bristan range of taps and showers is designed to meet the needs of Social Housing at every level. Whether it's specifiers who demand great looks along with the highest standards of safety and compliance, or the tenants and their families who rely on them every day.

CONTENTS

- 4 Specifying for Social Homes with confidence
- 6 Building better communities in Social Housing
- 8 Bathroom taps
- 30 Thermostatic Bath Shower Mixers
- 32 Kitchen taps
- 42 Showers
- 48 Accessories

This brochure details our wide range of products designed to meet the needs of the Social Housing sector. They're ideal where value, durability and performance are crucial, and designed to withstand the toughest knocks to reduce your maintenance costs and extend replacement cycles.

TRUST THE BRISTAN TEAM

We'll be with you every step of the way to help you match the requirements of your new build or refurbishment project to the right products.

Our helpful specification support team is always available with advice on legislation and regulations, as well as technical support for installation and maintenance to maximise performance and safety.

Our technical teams are focused on continued product development to meet the demands of the market and the constantly evolving regulations on water consumption and sustainability.

Because just like you, we're dedicated to delivering the best so that tenants can enjoy a more comfortable, more secure home environment.

SPECIFYING FOR SOCIAL HOMES WITH CONFIDENCE

Bathrooms and kitchens are essential for every home. A place for tenants to relax and indulge themselves. An indispensable part of the morning and evening routine for families of all ages. In fact, no other room is more important. Our years of experience will help you make sure yours are the very best in terms of performance, looks, value and durability.

QUALITY YOU CAN RELY ON

All Bristan products are manufactured from the highest quality materials, to the highest possible quality standard. Our in-house testing facility has been awarded ISO/IEC 17025: 2005, which is the general requirement for the competence of testing and calibration laboratories, providing additional reassurance and peace of mind.

BEST OF BRITISH QUALITY

Designed and engineered in Great Britain to meet the most rigorous local authority and water industry standards, Bristan taps, showers, mixer valves and accessories are your guarantee of performance and reliability.

EASE OF USE

Our entire range has been carefully designed so the very young and the older generation alike can operate them easily and safely. Features such as ergonomic lever handles and thermostatic temperature controls all contribute to bathrooms that are safer and more comfortable for the whole family.

A MORE INNOVATIVE APPROACH

As Local Authority and Housing Association budgets become increasingly stretched, finding new ways to increase value without compromising on quality in public sector specifications becomes more and more important.

That's one of the reasons we're constantly investing in better product designs to improve quality and usability while satisfying the demands of Local Authorities and regulators.

For instance, some of our shower and bath fill mixer taps are thermostatically controlled to ensure water temperatures never exceed 44°C. A crucial part of satisfying Part G of the building regulations and protecting tenants from the risk of scalding.

At the same time, robust design and hardwearing chrome finishes resist wear and tear, reducing the need for frequent repairs or replacement in your homes.

Bristan products are fully compliant to UK Water Regulations, which guarantees your specifications fall in line with regulations and byelaws covering water supply and fittings.

SPECIFIER SUPPORT

Bristan offers support for specification professionals with project building tools, technical data sheets, BIM data, links to RIBA and much, much more.

For more information, call our specifier helpline on 0844 701 6273 or visit www.bristan.com

UK WIDE DISTRIBUTION

Our market-leading distribution service guarantees next working day delivery to your chosen merchant on orders before 6pm. We'll work alongside you throughout your project to help you make the right choices and ensure you get the products you need, when and where you need them.

GUARANTEE

All products are quality tested and carry a comprehensive guarantee of up to five years on parts and one year on fitting.

There are also options to extend our standard guarantees and create bespoke aftercare packages. Speak to our customer service team for more information.

BUILDING BETTER COMMUNITIES IN SOCIAL HOUSING

As a specifier, you know the importance of a home environment that tenants can feel pride in and take ownership of. The Bristan range of bathroom and kitchen products allows you to create just such an environment with stylish, modern looking taps and showers that nevertheless deliver outstanding value for money.

SM BAS C

CHC DSM C

DESIGNED WITH TENANTS IN MIND

All our products are designed for ease of use by all ages and abilities. Many have simple, easy sequential controls that make handwashing child's play.

Our showers for Affordable Homes are easy to install, economical and feature built in thermostatic temperature controls that keep water at a constant temperature, regardless of whether another tap is turned on elsewhere in the house. Not just more comfortable, but safer too, as the risk of scalding is reduced.

WATER EFFICIENCY

Your homes also need to stand up to the latest legislative requirements when it comes to water efficiency. Especially when larger housing association developments or local authority estates can be made up of hundreds of individual homes in which each person can consume, on average, 150 litres of water per day*.

So as well as fitting flow limiting technology to some of our products, we've chosen our Affordable Housing range, in part, for its water efficiency. Where appropriate, you'll see flow rates next to a number of our products, indicating just how much water they use under the European Water Labelling scheme.

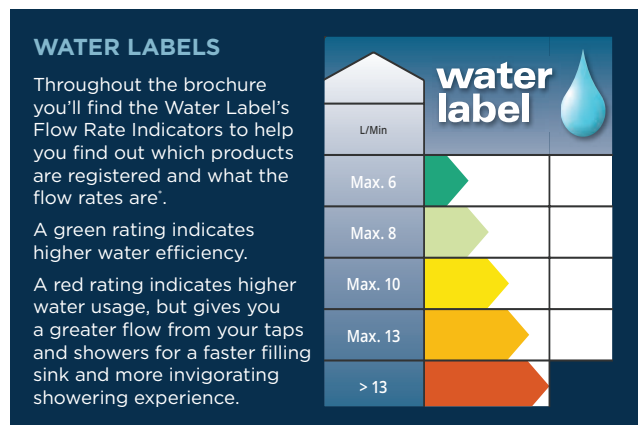

*Consumer Council for Water figures

A MORE SUSTAINABLE APPROACH

Our 'every drop counts' approach to water efficiency is reflected in the number of products incorporating flow limiting features and our support for the European Water Label Scheme. As well as helping you meet Part G of the Building Regulations, that's a big plus for environment and cost-conscious housing associations too. We also operate an ethical supply chain to limit consumption of non-renewable resources and reduce the environmental impact of our delivery vehicles.

EUROPEAN WATER LABEL

The European Water Label is an at a glance guide showing how much water a product uses in Litres per Minute (L/Min). For a complete explanation, visit www.europeanwaterlabel.eu

BATHROOM TAPS

Bristan taps, first and foremost, are designed to work and go on working. But even when you're specifying within a limited budget, they offer a range of contemporary design options that help you create stylish, attractive bathrooms and homes your tenants can be proud of.

AN OVERVIEW OF THE SOCIAL HOUSING BATHROOM TAP RANGE

Robust doesn't have to mean basic, and while value for money and durability often drive Social Housing specification, our bathroom taps range still offers plenty of options for introducing

modern design values into your homes. Whether it's the chunky appeal of our Cadet and Club taps, or the slimmer lines of Orta, you'll find something to fit your plans.

CHOICES

With a rounded body and gently curved spout, our Choices basin taps, mixers and bath and shower fillers bring bags of character to any bathroom. Add the option of short and long levers handles, scoop handles or snub handles and you can see exactly how this popular design lives up to its name. With separate interchangeable heads, it also reduces the van stocks repair teams have to carry and prevents the expense of having to replace whole tap units in the event of damage or failure to the head, or to match varying tenant requirements.

Choices Basin Mixer (with Clicker Waste)

CHC BAS C Chrome

LEVER TAPS

Lever is the ideal bath tap specification for assisted living or Affordable Housing with elderly residents. The broad, extended lever handles can be controlled accurately and easily even by those with limited strength and dexterity, and their use across a range of basin taps, bath taps and bath shower mixers helps make the bathroom accessible to all.

THERMOSTATIC BATH SHOWER MIXERS

Guarding against scalding, especially in properties that may be home to vulnerable groups such as young children and the elderly, is a hugely important consideration. Our thermostatic bath shower mixers guarantee water is always dispensed at a safe temperature to protect residents and provide compliance with Part G of the building regulations.

KITCHEN TAPS

At the very heart of the home, kitchen taps have to be robust enough to put up with constant use, every day. However, that doesn't mean they can't look stylish. Our pillar, monobloc and twin mixer taps for Social Homes new build and refurbishment are durable and practical without sacrificing the looks that are so important to creating a home environment.

Warm up mode; once temperature is reached the on/off button stops flashing

Anti limescale feature reduces build up and rub-clean handsets help extend product life

Digital display; choose your ideal temperature setting

Perfect replacement shower; multiple water/cable entry points for easier compatibility

Easy to clean and maintain; external filter helps maintain performance

Large soap dish with retractable hooks for product storage

Extra large colour coordinated showerhead; stylish performance

Illuminated on/off button indicates powered and ready for use

Multiple water inlet and electrical cable entry points

Specify as

Joy Care Thermostatic Electric Shower.
BEAB Care Accredited. Standard length rail and hose.

Joy Care Thermostatic Electric Shower

JOYTHCK85 W

JOYTHCK95 W

Longer length rail 1m, 2m hose and easy to move paddle design hose retainer

User instructions available in braille and audio

Longer length hose to help with assisted bathing

Specify as

Joy Care Thermostatic Electric Shower. BEAB Care Accredited. 1m length rail and 2m length hose with easy to operate paddle handle hose retainer.

Joy Care Thermostatic Electric Shower

JOYTHCKH85 W

JOYTHCKH95 W

Longer length rail 1m, 2m hose, easy to move paddle design hose retainer and handle dial

User instructions available in braille and audio

Easy paddle operated height adjustment and long lever control

Specify as

Joy Care Thermostatic Electric Shower. BEAB Care Accredited. 1m length rail and 2m length hose. Easy to operate paddle handle hose retainer and longer handle dial.

SHOWERING

Our bar valve shower kits offer a broad range of options, including thermostatic and some offer cool touch technology that provides family safe shower casing and a choice of single or multi-function handsets. All can be fitted quickly and easily while tiling and plastering is still going on using our Easyfit wall mount kit, which also makes repairs and maintenance easier and quicker.

Zing Thermostatic Exposed Cool Touch Bar Valve with Riser Kit, Single Function Handset & Fast Fit Connections

ZI SHXSMCTFF C

ZI SHXSMCT C

Connection Inlet: 15mm compression for ZI SHXSMCTFF C. G1/2" for ZI SHXSMCT C

Inlet Centres: 150mm

Working Pressure Range: 0.2 - 5.0 bar

Flow rate at 0.5 bar open outlet (without hose): 6.7 l/m Temperature: Pre-set 38°C. With push button override to 46°C

Fast fit connectors for easy retro-fit installation

Cold water feed surrounds the hot water to ensure the valve is safe to touch by all the family

Rub clean handset

Supplied with our wallmount 10 fixing kit for easier retro installation (ZI SHXSMCTFF C only)

Specify as

Zing Thermostatic Exposed Cool Touch Bar Valve with Riser Kit and Single Function Handset.

Frenzy Thermostatic Exposed Cool Touch Bar Valve with Riser Kit, Multi Function Handset & Fast Fit Connections

FZ SHXMMCTFF C

Connection Inlet: 15mm compression

Working Pressure Range: 0.2 - 5.0 bar

Flow rate at 0.5 bar open outlet (without hose & flow regulators): 7.7 l/m

Temperature: Pre-set 38°C with push button override to 46°C

Eco feature on flow control (can be over-ridden.) Fast fit connectors for easy retro-fit installation

Specify as

Frenzy Thermostatic Exposed Cool Touch Bar Valve with Riser Kit, Multi Function Handset & Fast Fit Connections.

Frenzy Thermostatic Exposed Cool Touch Bar Valve & Fast Fit Connections

FZ SHXVOCTFF C

Connection Inlet: 15mm compression

Working Pressure Range: 0.1 - 5.0 bar

Flow rate at 0.5 bar (open outlet): 7.7 l/m

Temperature: Pre-set 38°C with push button override to 46°C Eco feature on flow control (can be over-ridden.)

Fast fit connectors for easy retro-fit installation

Fitted with flow regulators for economy

Specify as

Frenzy Thermostatic Exposed Cool Touch Bar Valve with Fast Fit Connections.

Design Utility Thermostatic Exposed Bar Valve with Adjustable Riser Kit, Single Function Handset & Fast Fit Connections

DUL2 SHXARFF C

Connection Inlet: 15mm compression

Working Pressure Range: 0.2 - 5.0 bar

Flow rate at 0.2 bar open outlet (without hose & flow regulators): 5.7 l/min

Temperature: Pre-set 38°C. With push button override to 46°C

Fast fit connectors for easy retro-fit installation

Valve is TMV2 rated giving it a higher standard of thermostatic performance and protection

Supplied with our wallmount 10 fixing kit for easier retro installation

Easy to use extended lever handles

Shower kit has an adjustable fixing bracket on riser rail to enable existing screwholes to be used

Wide bore hose maximises flow through the handset

Matching taps available

Rub clean handset

Specify as

Design Utility Lever TMV2 Thermostatic Bar Shower with Adjustable Riser & Fast Fit Connections.

Prism® Cool Touch Bar Valve with Adjustable Riser Kit, Peg Handles, Multi Function Handset & Fast Fit Connections

PM SHXMMCTFF C

Connection Inlet: 15mm compression

Working Pressure Range: 0.2 - 5.0 bar

Flow rate at 0.5 bar (open outlet): 7.7 l/m

Temperature: Pre-set 38°C with push button override to 46°C

Eco feature on flow control (can be over-ridden.) Fast fit connectors for easy retro-fit installation Rub clean handset

Valve is TMV2 rated giving it a higher standard of thermostatic performance and protection

Cold water feed surrounds the hot water to ensure the valve is safe to touch by all the family. Supplied with our wallmount 10 fixing kit for easier retro installation

Shower kit has an adjustable fixing bracket on riser rail to enable existing screwholes to be used

Matching taps available, making it perfect for retro fit

Specify as

Prism Thermostatic TMV2 Exposed Cool Touch Bar Valve with Adjustable Riser Kit, Peg Handles, Multi Function Handset & Fast Fit Connections.

Artisan® Thermostatic Exposed Bar Valve with Adjustable Riser Kit, Multi Function Handset & Fast Fit Connections

AR2 SHXMTFF C

Connection Inlet: 15mm compression

Working Pressure Range: 0.1 - 5.0 bar

Flow rate at 0.2 bar open outlet (without hose & flow regulators): 5.5 l/m

Temperature: Pre-set 38°C with push button override to 46°C

Eco feature on flow control (can be over-ridden.) Fast fit connectors for easy retro-fit installation

Supplied with 2 x 7 l/m flow regulators (fitted)

Supplied with our wallmount 10 fixing kit for easier retro installation

Shower kit comes with rub clean handset and an adjustable fixing bracket on riser rail to enable existing screwholes to be used. Matching taps available

Valve is TMV2 rated giving it a higher level of thermostatic performance and protection

Specify as

Artisan® Thermostatic Bar Mixer with Multi-mode Kit and Fast Fit Connections.

ACCESSORIES

Choose from our extensive accessories range to customise your bathroom designs according to requirements. Whatever the bathroom style, our towel rails, tumblers and toilet roll holders will add comfort and character.

Glass Tumbler & Holder

SO HOLD C

Height 100mm

Width 67mm

Depth 105mm

Solid brass

Specify as

Solo contemporary glass tumbler and holder.
Chrome plated with concealed fixings.

Toilet Roll Holder

RD ROLL C

Height 105mm

Width 148mm

Depth 60mm

Specify as

Solo contemporary open sided toilet roll holder.
Chrome plated with concealed fixings.

Towel Ring

RD RING C

Height 205mm

Width 190mm

Depth 60mm

Specify as

Modern Round Bathroom Towel Ring
190mm diameter with concealed fixings.

Towel Rail

RD RAIL C

Height 48mm

Width 595mm

Depth 72mm

Specify as

Modern Round Bathroom Towel Rail
595mm width with concealed fixings.

Grab Bar

COMP GRAB03 C

Height 247mm

Width 437mm

Depth 70mm

Specify as

Contemporary Chrome Plated angled
grab rail with concealed fixings.

Grab Rail

GRAB 450 W

GRAB 450 B

Non corrosive aluminium construction
 No electrical earthing required
 Durable Stainless steel flange covers to conceal wall fixings 190Kg Max user weight
 Complies with DocM requirements
 Also available in grey (RAL 7005) and stainless steel finishes as special order

Specify as

DocM compliant Aluminium 450mm grab rail.

Wall Mount Fixings

WMNT10 C Chrome

Connection Inlet: 15mm compression
 Connection Outlet: G 3/4"
 Enables rigid fixing of exposed bar shower valves to 15mm pipework protruding through cavity wall surface.

Specify as

Fast fit connectors for easy retro-fit or first-fit installation of any bar shower.

Wall Mount Kit

WMNT11 C

Connection Inlet: 15mm compression
 Connection Outlet: G 3/4"
 Enables rigid fixing of exposed bar shower valves to 15mm pipework protruding through cavity wall surface

Specify as

First fix rigid fixing kit to guarantee 150mm centers during tiling.

15mm TMV3 Thermostatic Mixing Valve (also available with isolation and with 22mm inlet)

MT503CP
 MT753CP 22

Automatic shut-off in the event of hot or cold water supply failure
 Check valves, serviceable filters and flat faced inlet connections as standard
 Operates at a maximum pressure differential of 10:1
 High pressure bath fill Part G compliant

Specify as

TMV3 Thermostatic under bath blending valve with 15mm inlet connections.

DocM Showering Pack (blue or white)

DOCM-S W

DOCM-S B

Blue or White corrosion resistant aluminium construction

LANTAC approved, unhandled, single box solution

Vandal resistant design

TMV3 exposed OPAC shrouded shower valve included

Diverter between shower head and handset

DocM compliant

Dimension should be 250 respectively to meet DocM

Specify as

DocM TMV3 shower kit, single box solution includes OP TS1503 SCL shrouded shower valve and diverter kit.

Grab Rail / Slide Bar 900mm Stainless Steel Finish Paddle handle option available

EV KIT-EGB C

Tough, Non corrosive 32mm diameter stainless steel

Grab rail / slide bar

Flange covers to conceal wall fixings

Single function rub clean anti-limescale handset

Extended 1.75m rub-clean hose

Easy to use, robust slider mechanism

190Kg Max user weight

Specify as

Easy to operate shower grab rail with single function rub clean handset. Rub clean hose and concealed wall fixings.

Cascade® Shower Kit with Single Function Large Handset

CAS KIT02 C

Large Handset

Clam Packed

Kit includes: Adjustable Riser Rail (650mm), Hose (1.5m), Large Single Function Rub Clean Handset & Hose Retainer

Specify as

Cascade Shower Kit with single function rub-clean large handset, 650mm adjustable riser rail, hose retainer and 1.5M hose.

Shower Kit Shower Kit with Rub Clean Handset

KIT100 C

Clam packed

Kit Includes: Riser Rail, 1.5m Hose, Single Function Rub Clean Handset & Hose Retainer

Specify as

Shower kit with rub-clean handset, 1.5M hose and 600mm riser rail.
